THE GLOBAL WELLHEAD SYSTEMS AUTHORITY™

6033 ROTATORQ™

ROD ROTATOR

"PATENT PENDING TECHNOLOGY"

2 YEAR WARRANTY

HIGH TORQUE. LONGER RUNTIME.

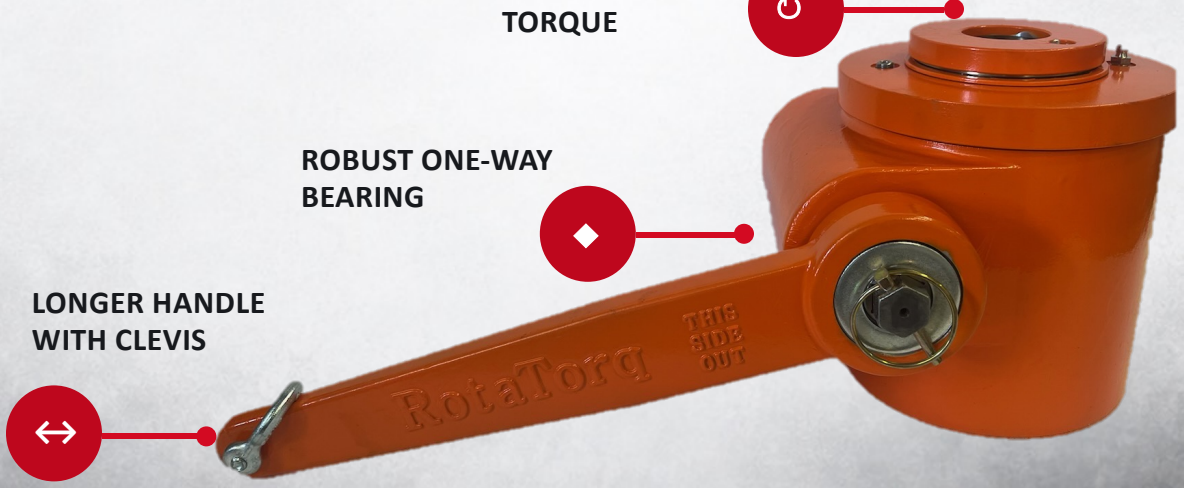

The 6033 RotaTorq™ is a next-generation rod rotator for challenging horizontal well profiles. Premium bearings and heavy-duty components deliver more torque while helping operators increase runtime and reduce maintenance costs.

60,000 LB
MAX LOAD

400–600 FT-LB
MAX OUTPUT TORQUE

ROBUST ONE-WAY BEARING

LONGER HANDLE WITH CLEVIS

6033 ROTATORQ™

PATENT PENDING TECHNOLOGY

MORE TORQUE
LONGER RUNTIME
LESS MAINTENANCE

6033 ROTATORQ™ TECHNICAL OVERVIEW

HIGH-TORQUE ROD ROTATOR

SPECIFICATIONS & FEATURES

- 60,000 lb. maximum recommended load
- 400–600 ft-lb maximum output torque
- 120 lever pulls to 90° for one complete revolution
- Longer handle with clevis to reduce cable failure
- Robust one-way bearing
- Patent pending technology

DIMENSIONS

- Body height: 7-7/8"
- Body width with lever: 8-13/16"
- Lever length, bearing center to end: 13"

MAINTENANCE

- Internally sealed working components
- Greasing intervals twice a year maximum
- Only replacement item is the handle assembly

FIELD-TESTED BENEFITS

- Extensively field tested over several years
- Extends tubing and rod string life
- Reduces paraffin buildup and chemical program costs
- Rotates rod guides to use 100% of the guide fins
- Two-year warranty, the longest rod rotator warranty in the industry
